JIM'S KIDS. Jim was a fisherman—up on the hill Over the beach lived be an' his wife, in a little bouse—you kin see it still— An' their two fair boys; upon my life You never seen two likeller kids, In spite o' their antics an' tricks a noise.

Jim would go out in his boat on the sea—
Just as the rest on as fishermen did—
And when he came back at night there'd be
Up to his knees in the surf each hid,
A beck'nin' and cheerin' to Fisherman He'd hear 'em, you bet, above the roar.
Above the waves on the shore.

But one night Jim came a saillin' home And the little kid's weren't on the sands— Jim kinder wondered they ha'n't come. And a tremble took hold of his knees and And he learned the worst up on the hill in the little house, an' he bowed "The fever," they said.

They kep a callin' bec'non' him.
For they kind o' wandered in mind—th Were about the waves and Fisherman Jim, And the listle boat sailin' for shore— Till they spoke no more.

Well, Fisherman Jim lived on and on, And his hair grew white and the wrin But he never smiled and his heart seemed recent raids is a white man named L. N. traint, and for false returns with regard And he never was heard to speak the of the little kids who were buried there Upon the hill in sight o' the sea, Under a willer tree.

One night they came and told me to haste
To the house on the hill, for Jim was sid
And they said a hadn't no time to waste,
For his tide was ebbin' powerful quick,
And he seemed to be wanderin' and cras An' a-seein' sights he oughtn't to see— An' had called for me .

And Fisherman Jim, ser he to me: "It's my last, last cruise—you ut i'm sailin' a dark and dreadful sea; But off on the further shore, on the same Are the klas, who's a-beck'nin' and callin my name Jes' as they did—ah, mate, you know— In the long ago."

No, sir! he wasn't afraid to die,
For all that night he seemed to see
His little boys of the years gone by
And to hear sweet voices forget by me;
An' just as the mornin' sun came up—
"They're a-holdin' me by the hands!" he

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D." "It it a scientific fact that the Royal Baking Powder is absolutely pure."
"H. A. Morr, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. Huser Monros, Ph.D., President of Stevens Institute of Technology." "I have such zed a package of Royal Baking Powder. The materials of which composed are pure and wholesome. S. Dana Haves, State Assayer, Mass."

The Royel Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American fustitute, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of

Norn.-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler A one pound can of each powder was taken, the total leavening parer or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it coats a few cents per pagnit more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better werk. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.
